THE 1994 DEUEL CONFERENCE ON LIPIDS

#36

Advisory Board
Arthur A. Spector, *Chair*
Department of Biochemistry
University of Iowa
4-403 Bowen Science Building
Iowa City, IA 52242
(Phone: 319 / 335-7913)
(Fax: 319 / 335-9570)
Robert W. Mahley, 1995
John D. Brunzell, 1996
Richard Jackson, 1997
Tracy M. Forte, 1996
Linda K. Curtiss, 1998

Phoebe Fielding, *Treasurer*
Cardiovascular Research Institute, Box 0130
University of California Medical Center
San Francisco, CA 94143-0130
(Phone: 415 / 476-3053)
(Fax: 415 / 476-2283)

Richard J. Havel, *Local Arrangements*
Cardiovascular Research Institute, 1315M
University of California
San Francisco, CA 94143-0130
(Phone: 415 / 476-2226)
(Fax: 415 / 476-2283)

Edwin L. Bierman, *Funding*
Department of Medicine
Division of Metabolism, RG-26
University of Washington
Seattle, WA 98195
(Phone: 206 / 543-3158)
(Fax: 206 / 685-8346)

Program Committee
Roger A. Davis, *Chair*
Department of Biology
Molecular Biology Institute
San Diego State University
San Diego, CA 92182-0057
(Phone: 619 / 594-7936)
(Fax: 619 / 594-7937)
Alan Chait, 1995
Aldons J. Lusis, 1996

Received 6/21/93

14 June 1993

Note Needs to be received by Nov. 1, 1993

George A. Hashim, Ph.D.
Associate Research Director
Council for Tobacco Research - USA, Inc.
900 Third Avenue
New York, NY 10022

Dear Dr. Hashim:

The 1994 Deuel Conference on Lipids has been set for March 8-11, 1994 in Napa, California.

The program is being organized by Dr. Roger Davis of San Diego State University with the following tentative proposed topics:

1. Apolipoprotein B and apolipoprotein B-containing lipoproteins

control of gene expression, mRNA editing and protein synthesis in normal and abnormal states

2. Assembly, secretion and metabolism of lipid/protein complexes

VLDL, LDL, HDL and lung surfactant: assembly, receptors and metabolism

3. New models and insights associated with lipid disorders and atherosclerosis

Animal models, new genetic abnormalities and pharmacologic interventions

4. Sterol and bile acid metabolism

Cloning of ACAT, regulation of expression of sterol regulated genes, steroid hydroxylations and interaction of the bile acid enterohepatic circulation with lipoprotein metabolism

5. Fatty acids, triglycerides and isoprenoids

Protein modification, metabolism (i.e., lipases), control of synthesis, control of intracellular and extracellular transport, metabolism and oxidation

The Deuel Conference maintains an informal atmosphere, encourages free and open discussions by all attendees, and is a forum for presentation of new and unpublished data in rapidly developing new fields of research. A copy of brief background information on the Deuel Conference and a copy of last year's program are enclosed for your information.

The Deuel Conference is supported by donations from companies such as your own, and we are therefore again soliciting your financial support. Because of the limitations on the conference size, it is necessary to restrict supporting organizations to two representatives at the round table at a minimum donation of $2,000 per representative and we are soliciting primarily those who have supported us in the past, or those who have expressed an interest in supporting this conference. We hope that you continue to be interested in sending a representative to the conference. If this is indeed the case, we would be delighted. Please contact me as soon as possible with the name and address of the attendee as well as your contribution to the Deuel Conference and I will forward that information to Dr. Havel's office and to Dr. Davis' office. In order for us to plan accordingly, an immediate reply is most desirable, with definite commitment by November 1, 1993 at the very latest.

We hope to hear from you in the near future and to see you or your representative next March.

Sincerely,

Edwin L. Bierman, M.D.
Funding Chairman
